Digital services applied to maintenance activities

Revenue by industrial business

Siemens ha una pluriennale esperienza nell'efficienza energetica ed in generale nella sostenibilità.

Siemens è uno dei più grandi fornitori di tecnologie green al mondo ed ha una percentuale attorno al 42% del proprio fatturato legato al portfolio ambientale.

Opera nell'ambito di impianti di produzione da fonti di energia rinnovabili, sistemi di trasmissione efficienti di energia, soluzioni di smart grid, soluzioni efficienti di stoccaggio energia, ecc..

Questo primato è riconosciuto a livello internazionale, già nel 2014 Siemens si è classificata sector leader al Dow Jones Sustainability Index e vi rimane tutt'ora

The **Dow Jones Sustainability** World **Index**, or **DJSI** World, is a global **index** consisting of the top 10% of the largest 2,500 stocks in the S&P Global Broad Market **Index** based on their **sustainability** and environmental practices.
