

**POZZI LEOPOLDO SRL**

LOMBARDY ENERGY & CLEANTECH DAY 2018

17 aprile 2018

## SAVE products

- RCR rotating heat exchanger
- RHeX enhanced rotating heat exchanger
- RCRmeter energy meter data logger
- RECOTRON energy recovery control systems

## PLUS products

- DOSATEX liquid dispensing systems
- SOLVITEX dye dissolving & dispensing
- SALTEX salt weighing and dispensing
- PITEX dye automatic weighing

## FIX products

- AQUAFIX horizontal machines
- AQUAFIX vertical machines
- AQUAFIX CUBE machines
- Full line of pallet automation

Made entirely of 316 stainless steel, POZZI **self-cleaning, fouling-proof, maintenance-free** heat recovery unit has a central heat exchanging element continuously kept under rotation by a small motor.

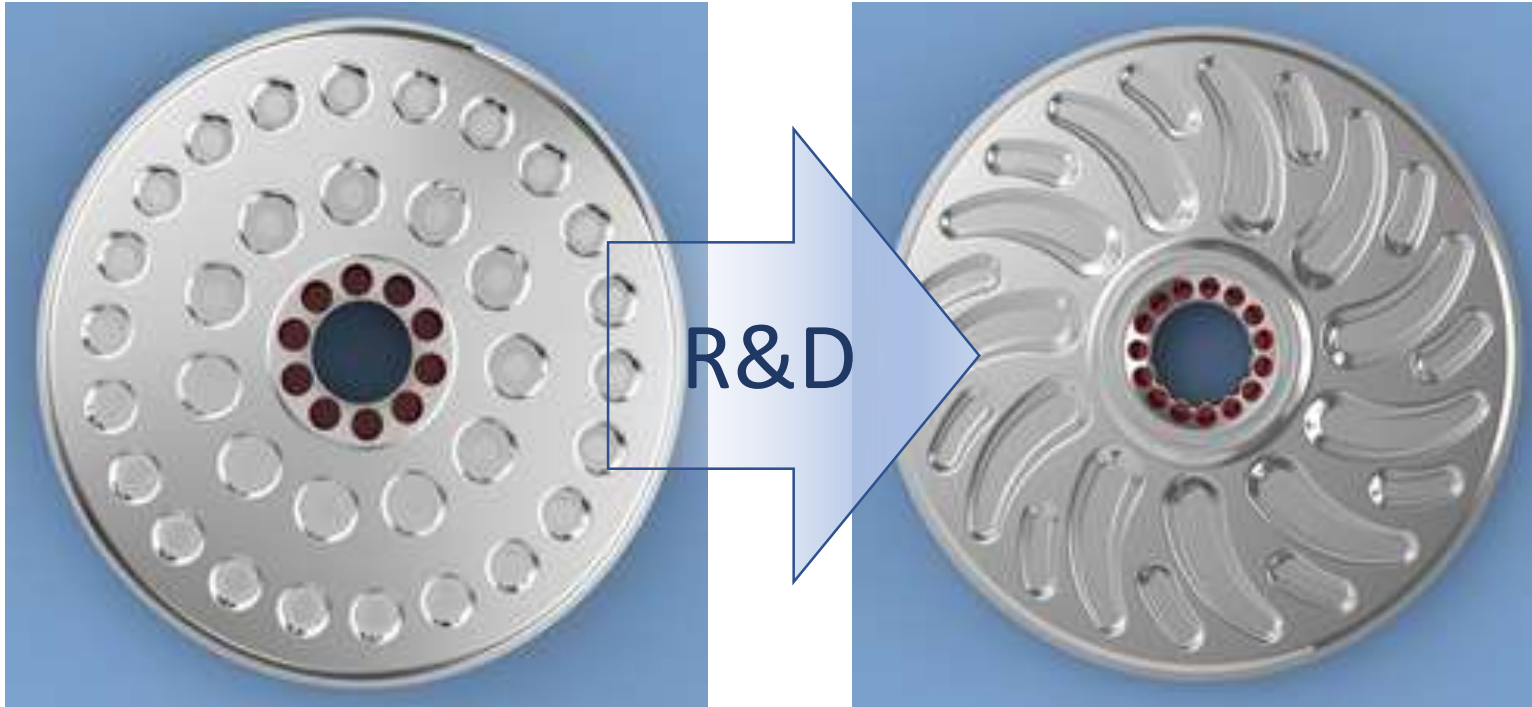

Perfect for treating very dirty, viscous effluents.

We have already installed more than 5,000 RCR worldwide.

Since 1885

In addition to being competitive in terms of CAPEX, OPEX, ROI and lifespan, RHeX is certainly a sustainable technology and obviously environmentally friendly.

Since 1885

The LowUP project has received funding by the European Union's Horizon 2020 Research and Innovation Programme under Grant Agreement n°723930.

Low valued energy sources UPgrading for buildings and industry uses <http://lowup-h2020.eu/>

In São Paulo the presentation of Pozzi Leopoldo S.r.l. is followed by a matchmaking mission with “LOW CARBON” Brazilian companies, including a visit to some state-of-the-art low carbon factories.

Since 1885

EU finances up to € 30,000 in expenses to “facilitate” joint Italian-Brazilian industrial and/or market efforts.

We have selected a partner and still are in the process of market analysis.

Thanks to this program POZZI will be able to meet important stakeholders of the Japanese «green» economy.

The one-week mission includes participating in a specialized exhibition with a dedicated booth and going through a series of pre-arranged matchmaking meetings, intended to enable long-lasting business partnerships for distribution, licensing, and/or joint production.

**Since 1885**

EU will finance 80% of exhibition expenses and lodging, while market analysis and matchmaking organization are fully covered.
