

Horizon Europe Project

D4RUNOFF

Funded by the
European Union

General Project Information

Full name of project:

*Data driven implementation of hybrid nature based solutions
for preventing and managing diffuse pollution from urban water runoff*

Acronym: D4RUNOFF

Call: HORIZON-CL6-2021-ZEROPOLLUTION-01

Type of action: HORIZON Research and Innovation Actions

Project duration: 42 months (1. september 2022 – 28. february 2026)

Budget: 3.332.948 Euro (100% contribution by EU)

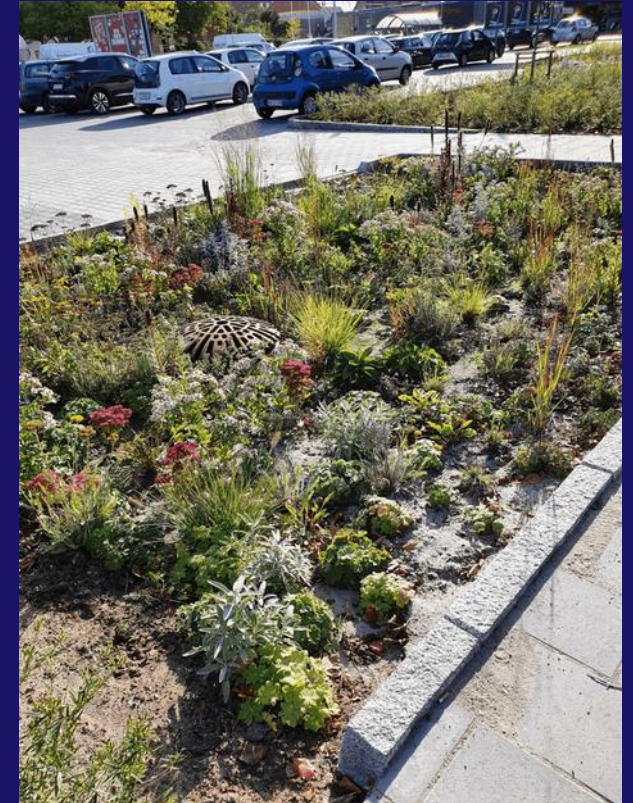

D4RUNOFF

Project Partners

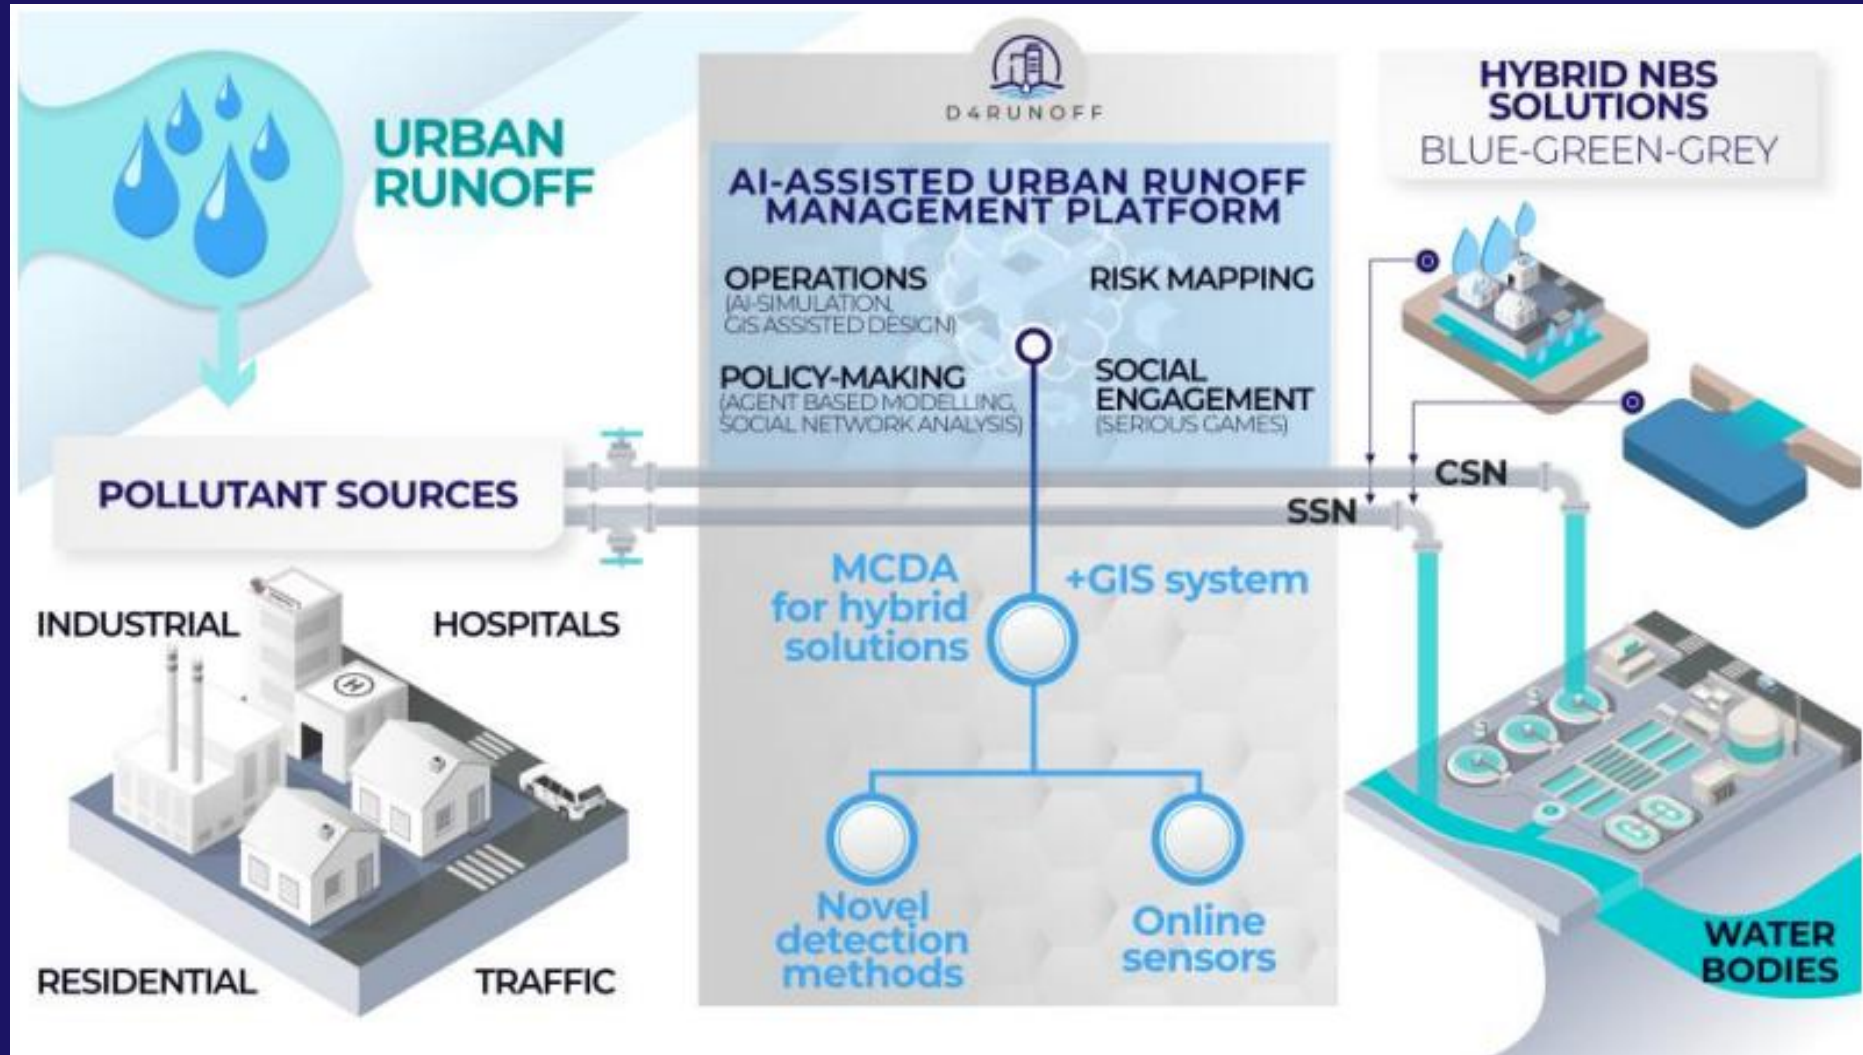

Problems

- Urbanisation and climate change affects urban runoff
- Massive investments in climate change adaptation
- Urban pollutants – sources, fate and discharge?
- Declining ecosystems and biodiversity
- Knowledge and decision making

The D4RUNOFF Framework

Our pilot areas

Odense, Denmark

Santander, Spain

Pontedera, Italy
